Working Group on Public and Access Services
October 2013

**CIC Shared Print Archive
Operating Principles**

- Services of the Shared Print Repository will be available to all CIC libraries.
- Non-contiguous branch or system libraries will maintain currently supported access. Services covered in this policy will be extended to all libraries covered under existing agreements.
- Although the CIC SPR is not a dark archive, preservation is one goal for the project. Sustained maintenance of print copies of secured titles will ensure availability of access for member libraries.
- CIC SPR holdings will use a distinct OCLC symbol to facilitate resource sharing.
- Fulfillment will commonly involve delivery of a scanned digital surrogate unless the user specifically requires access to the original print volume.
- Existing interlibrary loan channels and policies will be used to borrow physical volumes and to request scanned copies of articles.
- The CIC SPR and its users will follow the Interlibrary Loan Code of the United States and the IFLA Guidelines for Best Practices in Interlibrary Loan and Document Delivery.
- Loans of physical volumes should be restricted to CIC and affiliated libraries. Any library may request electronic document delivery of an article following standard procedures and guidelines.
- Statistics consistent with those collected by other shared print repositories will be compiled and reported on a regular basis.
